

INTERNATIONAL UNION OF
PURE AND APPLIED CHEMISTRY

IUPAC/ICGCSD INITIATIVES

in green and
sustainable chemistry:

Be part of the solution!

The workshop welcomes conference participants, especially younger chemists, to come learn about IUPAC's mission to advance the chemical sciences in service of humankind and the work and activities of the **Interdisciplinary Committee on Green Chemistry for Sustainable Development (ICGCSD)**. This vibrant committee seeks to support, promote, coordinate, and collaborate green and sustainable chemistry within IUPAC and beyond. Come learn how you can be part of these opportunities and contribute to a sustainable future through chemistry.

AGENDA:

#	TOPIC	SPEAKER	DURATION
1	ICGCSD Committee - core mission and scope	Professor Jane Wissinger	15 minutes
2	Metrics for green chemistry/Green chemistry impact toward 2050 Green Deal in Chemistry and Sustainability	Professor Fabio Aricò	15 minutes
3	ICGCSD Green chemistry postgraduate summer school/ Systems thinking for education and industry	Dr. Aurelia Visa	15 minutes
4	Global Conversation on Sustainability/IYCN/Outreach	Dr. Juliana Vidal	15 minutes
5	Panel Discussion - How to get involved?	—	30 minutes

ICGCSD

Interdivisional Committee on
Green Chemistry for
Sustainable Development

September 11, 2026
(Friday)

9:30 – 11:00

Room 7
